

The diagram shows a 4x4 grid on a light gray background. A sequence of four blue squares is arranged along the main diagonal from the top-left to the bottom-right. Each blue square contains a white label: M_1 , M_2 , M_3 , and M_4 respectively. Between each pair of adjacent blue squares, there is a small orange square positioned at the intersection of their boundaries. Specifically, the orange squares are located at the intersections of the first and second, second and third, and third and fourth blue squares.
